

## Feversham Annual Fundraising Event

The Feversham annual fundraising event raised was a huge success for all the charities involved.

Earlier in the year students from each house voted for the charity they wished to support and each house was allocated the most popular. Students investigated their chosen charity and the causes they support. They also designed posters and displayed the name of their charity in their form rooms.

Fundraising is an important part of Feversham and students worked together to think of different ways they could raise money and awareness for their charity. The most popular idea was a food event and students worked really hard making food to sell during break time. Each house was allocated a day and the competition was on to raise the most money.

The event was a huge success with savoury food, like samosas and pakoras, alongside cakes, buns and biscuits.

Year 10 student Sanha, with the help of her auntie, stayed up late making a rainbow cake. This was an enormous cake with five different coloured layers and buttercream frosting. Sanha managed to raise £92 herself as her cake was a huge success.

The totals were as follows:

- Ibrahim house raised £199.32 for Hope Housing
- Ismail house raised £271.78 for the Olive Grove Foundation
- Yaqoob house raised £361.97 for Kidscan
- Yusuf house raised £347.46 for Bradnet

We are in the process of raising awareness of our whole school charity, Children on the Edge. We have so far raised £14 and hope to increase this with more fundraising in the next few months.
