Disadvantaged pupils	46
Other pupils	50

* Young people counted as being on apprenticeships are included within the figures for further education colleges, sixth form colleges and school sixth forms or employment/training. They are shown again in the column headed 'Apprenticeships'. A young person will be reported as an apprenticeship destination if they are in the 'Overall sustained education and/or employment / training destination' and also recorded as taking a funded apprenticeship at any time between August and July.

All school and national figures are percentages.

Other education destinations include independent schools, alternative provision, special schools, specialist post-16 institutions, UK higher education and education combination destinations.
